B3. Removing one pew close to the Tower arch

The case for:

- Removing this pew would enable those using wheelchairs to have an enabling them to take part in the service. Previously wheelchair users have been parked at the back of the church.

user could place their bible and hymn book on the book shelf and in an appropriate place for use.

- Wheelchair users, their families and friends have commented in the past that there should be a more appropriate place for wheelchair users in the centre of the church.

and moving it would not change the feel of the centre of the church as it would just open the space by one seat.

- This area can also be used for those with prams and pushchairs that also have to sit at the back of the church.

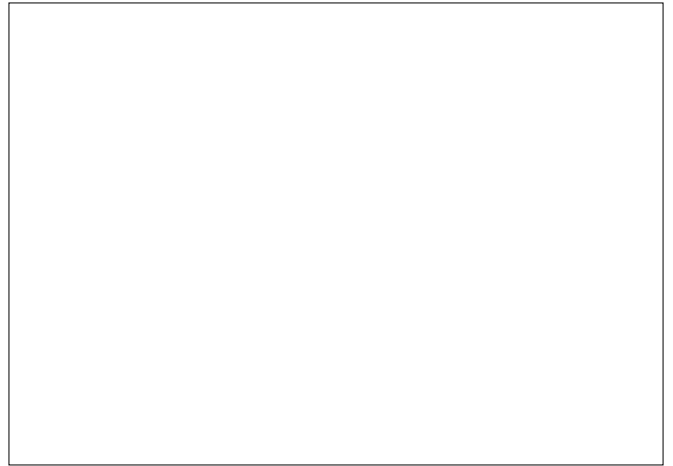

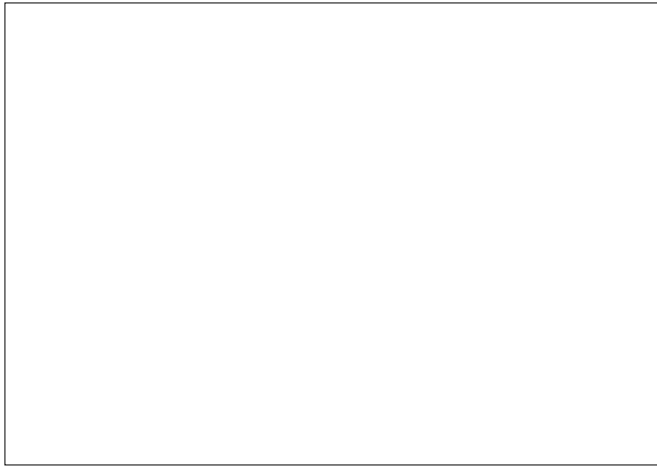

The case against:

There has been no properly structured survey to establish if they want this as a dedicated space to worship or if they would rather sit elsewhere as now.

The case for:

- The architecture and history of St Giles's are very important but the best way to preserve the church is to keep it alive as a place of worship.
